The bank is a private one, the firm being composed of Robert, Charles J. and Frank R. Meadowcroft. The business was established in 1860 by the father of the present proprietors. The bank occupies the quarters formerly used by the Park National Pank, which failed some time ago. Lyman E. Crandall has been appointed receiver. REN OF THE STATE BANK OF COMMERCE.

The State Bank of Commerce. having offices on the ground of the Woman's Christian Temperance Temple, is experiencing a heavy run this afternoon. It started just before noon with the appearance of some thirty or forty depositors.

The news spread like wild fire and within half an hour the looby was filled with an excited crowd of men and women, who tore and crushed in order to get within the glass doors. The scene attracted over a thousand of the general public, and the throng increased to such proportions that it was necessary to summon several policemen, who admitted the frenzied crowd one by one as fast as those at At half-past twelve an iron bar red engress wagon, containing several bags of gold, was hurriedly driven up to the build-ing and the money carried in by

stalwart watchmen and placed upon the counters. This, however, did not alway the appre-hensions of those outside, and for a while the crush was intensified. The bank officials did not seem to be in the least alarmed. Cashier Frederick Miller said to the repre-

seniative of the United Press: "We are not alarmed and we will meet this run." Then he added, as a kind of after thought: "That is, as long as we are able." The officers and directors of the bank are all wealthy Germans. Herman Felse and is president and Jacob Gross vice president.

Before the District can get a clear title, however, to the property it must go into a court of equity and enforce the liens for taxes against the property bid off by it at tax sale which has not been redeemed by the owner within two years after such sale. The District has been very dilatory on account of its insufficient legal force in the enforcement of its liens against property it has bought for delinquent taxes, and has never gone into the Equity Court, as required by law, for the purpose of obtaining title. Recently, however, a case arose where of property the aggregate delinquent taxes on of property the aggregate delinquent taxes on which amounted to about \$11,000. There were which amounted to about \$11,000. There were other purchasers at previous sales, and in response to the request from one of these to go into court the Commissioners inquired of their attorney as to the proper mode of procedure. Assistant Attorney Duvall says in order to prepare such a bill it will be necessary to obtain a chain of title exhibiting the record condition of the property and deposit it with the bill when filed, at least \$10 with the clerk of the court and with the United States marshal, \$100 for each defendant to be served with a process. the fact that great interest is taken by the citi-zens of the District in the manner in which the hucksters conduct their business and the honesty or dishonesty with which the citizens are served. In my letter of two weeks ago I submitted a list of names of per ons who were offering for sale short-weight butter, and asked for advice as to how to proceed against them. I believe my letter was referred to the counsel of the board, but as yet I have not been informed of potatoes or similar products should have scales and should sell by weight only. I also suggest that an order directing the examination and sealing of all dry measures once a year, as it is the custom of many other cities, would tend to prevent fraud. As the rule now is once scaled, they are scaled for all time, but as these measures last for many years and are easily made smaller by changing a staye and tightening the hoose there.

I respectfully call attention to the fact that my duty demands that I shall once in every three months enter every store, shop, market or other places where goods are sold and text the scales and that the deals are sold and test the scales, and that this duty very fully occupies my time, and while I shall do all in my power to prevent fraud in the line of my duties, I can do little more than report the cases and rely upon the police to execute the orders of the board. THE BRIGGS CASE.

The Commissioners have received an adverse opinion from their attorney against the request of J. Maury Dove for permission to rent the wharf at the foot of G street when vacated by the contract for removing garbage.

WHY THE CARTS COST MORE.

The engineer department of the District only pays \$1.75 per day for the use of a horse, cart and driver, while the street sweeping department pays \$2. Superintendent Davis was recently requested by the Commissioners to state how it was he paid 25 cents more for this service than the District. His reply as contained in a letter today sols forth the statement that the carts used in his department hold about three times as much as those used in the engineer department. It would not be economy to use small carts in the street cleaning department for the reason that more frequent trips would have to be made, the cost of which service would have to be made, the cost of whic bills alone of the delegates was about \$900. In this particular, then, the Briggs case cost \$1,800. Dr. Bartiett supposes that all the printing that was done by the prosecuting committee was a charge upon the funds of the sun's rotation on its axis. mate as printed in some of the newspapers that the Briggs case, from the beginning, more than two years ago, to the present time, has cost the assembly \$50,000 is not much out of the way. He thinks that Col. McCook of the prosecuting committee, who is a wealthy man, has expended on this case out of his own pocket at least \$20,000. He is the only man of the people generally, but for the reason that the sendent of the subject and the interest it arouses among the people generally, but for the reason that he is engaged upon a publication which pecket at least \$20,000. He is the only man of means on the committee, Dr. Bartlett says, and no doubt paid the expenses of the other mem- which will embody the results of his observable.

Now that the case of Prof. Briggs has been than something that is settled and belongs to the past. He has been so steeped in assembly matters during the past two weeks that it is not surprising that he had something to say on the subject of the assem bly in his pulpit vesterday. What he said, and especially when he touched upon the Briggs in one section of the great Presbyterian Church and the church simply crushed it out. It is a noticeable fact that in all the pulpits Presbyterian pulpit, while outside of our deister has expressed himself in opposition and that was a Universalist.
